

Sensor shelter - NAV WITH NATURAL VENTILATION

For all weathers ...

and for protection against radiation the sensor shelter with natural ventilation is designed for universal use with relative humidity and air temperature measuring instruments for maritime use.

- natural ventilation of the sensors
- light and radiation transmission nearly eliminated
- easy installation
- protection against weather influences
- improved lamellar system
- including mounting material for different poles
- made from UV and weather-proof material
- no return of heated air into the ventilation circle

APPLICATIONS

- high-quality use in meteorology and on ships

Professional Line	Sensor shelter - NAV with natural ventilation
Id-No.	00.08141.620000
Range of application	-50...+80 °C
Design	Mast mounting: Ø 40...60 mm
Dimensions	Ø 120 mm, Height: approx. 297 mm (incl. mounting)
Amount of lamellas	11 (3 lamellas closed, 7 lamellas normal, 1 lamella with Ø 73 mm opening)
Weight	535 g without bracket; (Weight of bracket: < 545 g)
Included in delivery	Screwing for sensor diameter 14...21 mm
Options (order separately)	32.08141.001010: Adapter for sensor diameter 5 mm 67.26010.540100: Screwing for sensor diameter 18...25 mm
